ABOUT ME

Hi! It's Munise. I have been into painting and writing from an early age. I completed my education at Hacettepe University Faculty of Economics and Administrative Sciences in Ankara. During this time, I learned to use many digital design programs by myself and became a self-taught graphic designer. After graduation, I had an opportunity to work in a 3D design company as a graphic designer. I have been working as a freelancer for the last few years and have been involved in various projects. I'm also taking steps towards becoming a web developer. You can find more details on my website.
