

Hello, I'm Munise Ben.

I have been into painting and writing from an early age. I completed my education at Hacettepe University Faculty of Economics and Administrative Sciences in Ankara. During this time, I learned to use many digital design programs by myself and became a self-taught graphic designer. After graduation, I had an opportunity to work in a 3D design company as a 3D and graphic designer. I have been working as a freelancer for the last few years and have been involved in various projects. And now, as a front-end web developer, I am skilled at creating practical and user-friendly designs that prioritize the combination of functionality and aesthetics. I highly value the combination of these two elements in my work.

Let's get to know each other.

Experience

2022 – present / Brussels

Freelancer

I am currently working as a freelance graphic designer and web developer. My main responsibilities include designing logos, menus, corporate identities, brochures, and managing and designing social media content and illustrations and with the web developer training I have now, I design websites that will meet the needs of those around me.

2018 – 2019 / Dream Up / Brussels

Graphic Designer & Social Media Manager

As a Social Media Manager, I was responsible for managing the brand's presence on Google, Facebook, and Instagram, including designing advertisements. My main tasks included creating content for these platforms, designing brochures, and editing and preparing photos for publication. During this job, I used adobe's most famous applications and also learned how to manage google accounts.

2018 – 2019 / Pizza Zio / Izmir

Graphic Designer & Social Media Manager

I served as a Social Media Manager, managing the brand's presence on platforms such as Instagram, Facebook, and Twitter. My main duties included designing the company's logo and corporate identity, creating content for social media platforms, editing product photos for publication, and preparing advertisement videos. While continuing this job, my auxiliary applications were Illustrator, Photoshop, InDesign, and Lightroom.

2014 – 2016 / 3Dortgen / Istanbul

Graphic and 3D Designer

I was employed as a Graphic and 3D Designer, responsible for creating product designs based on customer requirements. My primary responsibilities included creating social media content for the brand and creating 3D designs and productions. During this job, I used various applications such as Zbrush, Adobe Illustrator, Adobe Photoshop, CorelDraw. In addition, I had the opportunity to get to know the application called SolidWorks. Also, since my company is the distributor of Ultimaker 3D devices, I have a deep knowledge of 3D devices and their applications.
